DR. STRAUS. SURGEON DENTIST, WOULD inform the citizens of Louisville and its vicinity, that he has located
himself here permanently, for the purpose of practicing his profession in all
its various brunches, after the latest and most approved
myle. Having practiced for the last twenty years in
New Orleans, I feel confident of giving satisfaction to
every one who may honor me with a call. I would call
the particular attention of the public to my mode of filling teeth, which is done in such a manner as to get twice
the amount of gold into a cavity, as done in the usual
way. I can, therefore, "gnarantee "every tooth plugged
in such manner to be as good as if never decayed.

Artificial teeth inserted—from one to unentire set—
not only for beauly, but also for use, with or wilhout suction, such as the case may require. Teeth extracted
with as little pain as possible, and all other operations
pertaining to dentistry.

HAVING had the advantage of a thorough Bental education, offer their Professional services to the citizens of Louisville and vicinity. Dr. Fittz's skill in Mechanical Deutistry can be seen at their office, specimens of which took the first Premium and Diploma at the United States Fair lut85. Dr. Wilson has been treating aching teeth successfully for the last five yerrs by destroying the nerve without paln, filing the fangs and crown with gold, resh-ring the toolh to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved. More than fifty percent, of the teeth usually extracted can be made useful through life. We are daily treating and filling teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filing to fill it, using other and better means than the Indiscriminate use of the file. Any tooth can be filled with gold that is worth it ling at all. We use, when requested, a local sincellesia to prevent pain in extracting teeth. All operations warranted as represented, and terms as liberal as any good Dentist can afford.

The Convention will continue in session during o-day. The next place of meeting is in Pittsburgh, on the second Wednesday in September. We trust that hefore these gentlemen adjourn they will be afforded some evidence of the progress and condition of rallway matters in our State. There should be a parade of locomotives, with music rom their throttles, on one of the railroads.

MASONIC FRATERNITY.-The meeting of those in rested in relieving the masonic fraternity of the mbarrassments under which they are now laborng, was highly a uccessful. Many of our most ominent citizens came forward, in a spirit of iberality, and contributed largely to the object .-The committee, consisting of his honor, the Mayor, Hon. James Guthrie, Col. Wm. Preston, J. C. Coleman, Ben. J. Adams, Robert Atkinson, H. Schreder, Judge Pirtle, and others, will, in he course of a day or two, call upou the benevoent and liberal friends of the order, who have no ready responded, to do so, and we have no doubt hat we shall soon be able to announce that the emple is extricated from its difficulties, and the raternity will hereafter he able to meet the wants of the widow and orphan, and fully carry out the penevolent designs of their ancient and honorable rder.

None of the performances were calmlated to astonish the listeners, by excellence in by shape, though some pieces were tolerbly well xecuted. The ladies have pretty, sweet voices, ad Mr. Warwood has a very good bass voice, which he used with good effect in the selection rom the Oratorio of the Creation. Mr. Kunkle plays well on the piano. Subsequently, however, Willis was brought before Judge Russell, on writs of habeas corpus and certiorari, who dismissed the case and discharged the prisoner. THRATER .- THREE FAST MEN .- This piece seems

be a favorite, as it attracted a very good auience last night. In its way, the thing is good nough. There is humor and fun in it; and, if the pairons of the drama like it, we have no objection, s it is a matter of taste. The piece draws, and although we think the thing objectionable, yet if it suits public taste, we have no reason to find tault. Arriving there, Thompson and Despain were mmediately hung on an elm tree in the vicinity of the seminary of the town. The mob then attacked the Campbellsville jail and obtained Zeke, a negro man helonging to the estate of the murdered Sympson. At this juncture, Hunter, one of the nurderers, commenced making a confession of the crime. He implicated six other persons as parcipants in the cold bleoded murder. These are erry Staggs, Henry Staggs, Richard Staggs, ohn Underwood, Loyd McDaniel, and John Baree. The latter is a son-in-law of Sympson. Beug present, he was arrested. Hunter and the negro Zeke, were returned to the jail, and the sarty proceeded in ques of the other persons harged. It was their intention to take summary eveuge upon these.

year aud a half ago The Tobacco Inspection Difficulty. EXCITING SCENE IN THE CITY COUNCIL. An Aiderman Calls Another a Liar and

is Answered by the Display of a Pistol.

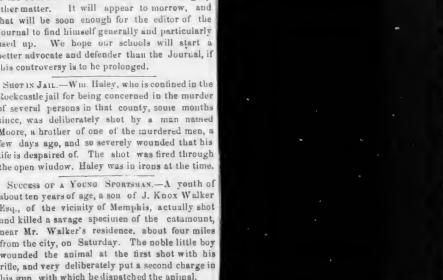

We had hoped that the meetings of tobacco uyers and warehouse men, and their consultations ith Gov. Morehead and members of the Council, rould have proven successful in the adjustment f the unfortunate difficulty which is now so seiously jeopardizing this important branch of our trade. But the question has assumed a new hase. Last evening the General Council was called together by Mayor Crawford to consider the roubles that have originated consequent upon the lection of Col. Bayles tohacco inspector.

In the Common Council, a resolution was introluced proposing the appointment of a committee o examine and report concerning the nature of ending difficulties. This was passed, and sent the Board of Aldermen. In that body, Dr. Weatherford of the tirst ward, offered a substitute. llis proposiiton was simply to the effect that five idges outside of the tobacco trade be appointed, who should judge of the competency of Col. Bayles. For this purpose, he was to inspect and sample httv hogsheads of tohacco. This substitute being adopted, was sent to the Common Council, where no definite action was taken. In this position the affair now stands.

During the discussion in the Board of Alder nen, Wm. A. Hauser, Esq., of the Sixth ward, Col. Bayles, was signed so numerously and by grave consideration. Dr. Weatherford responded, and gave an account of his devotion to the interests of the city. Mr. Hauser did not question his devotion. A running fire of words ensued .-Finally, after "it is not so" being exchanged several times, Alderman Hauser remarked to Alderman Weatherford, "You are a liar." Instantly Alderman Weatherford drew a pistol-but nobody was shot, although the dignity of the city fathers was considerably disturbed.

At a late hour last night, we had heard of no arrests, and no bloodshed. In fact, "order reigns in Warsaw." But, seriously, the occurrence is greatly to be deplored. It was an outrage upon the decorum of a legislative body, and at least one person should be indicted for carrying concealed weapons. When the fathers of a city engage in such disorderly and riotous proceeding, what can be expected of the children

BY THE OVERLAND MAIL. Three Days Later from California

The road up to within fifteen miles of Los An-

The road up to within fifteen miles of Los Angelos was very gaod. On the pass here which is about two and a half miles in length, the people of Los Angelos expended about eight thousand dollars in improving it, to induce the mail company to adopt that route. At Kearn River, the road was had for a short distance, again at Temecula the road began to grow bad and continnes so until San Felipe or Devil's Canon is reached.—Ten miles from the latter place, the road enters the Deseret; 18 miles further on is a new station called Palm Springs, from the fact that until recently, palm trees grewin the vicinity. The next station is any.
About 4 o'clock the command struck the Spokan river, much exhausted and broken down .raim Springs, from the fact that until recently, paint trees grew in the vicinity. The next station is at Carisacrick, a small stream of water strongly impregnated with sulphur. Indian Wells is the next station. Along this portion of the road the dust is very had; being strongly of an alkaline nature, it is offensive to the smell, and very irritating to the skin. At Almo, the succeeding station, a few days before our traveler arrived there, tion, a few days before our traveler arrived there, the men having charge of a mail, left the wagon and undertook to get it throngh on horsehack to the next station. In a tornado, which overtook them on the road, one of the men lost his hat, on getting down to get which, his horse took fright and ran away. His companion dropped his hlunkets, and in endeavoring to get them lost his horse likewise, hut sneceeded in saving the mails, which he carried on foot to the next station, the Indian Wells on the Yuma. He succeeded in killing the animal with his knife; he drank its blood, by which means he saved his life. He was rescued by men seen tout from the station in search of him.

Passing several unimportant stations, Mr. Farrell arrived at Fort Yunna. Seventeen miles from this Fort are the newly discovered gold mines of Arizona. From inquiries made here he ascertained that miners, of whom there was about a hundred at work, were naking from seven to forty dollars per day. It was reported that the diggings were much richer in the hills above the present mines, but a large band of hostile Indians of the Tonto Apaches trihe were encamped there, and it was not deemed prudent to prospect in that direction until the Indians were run off, which they koped to be able to do in a short time. The next station worthy of notice is Fillibuster Camp, about Lity miles from the diggings. It is thus named from the fact that Henry Crabbe and his companions, who were supposed to have designs on Sono-

ons, who were supposed to have designs on Sono-a, were killed by the Mexicans. The next place is ueson, a Spanish town of some four hundred inabitants. At this place they were warned to look ut for the Apaches, who were reported to be eu-imped some distance shead. Two hundred miles from this place is the Miembries river, a little hranch of the Gila. Leaving this they came on to the Mesilla valley, where they first struck the Rio Del Norte. Passing El Paso, the next place of note reached was Sierra Guecho.—At this point are several large natural tanks in 11c solid rock, which were supposed to contain sufficient water for the mail trains passing this point. On the arrival of the mail here, it was discovered that the tanks had gone dry, and water had to be hauled a distance of thirty miles for the males. It was found on examining the tanks, that nles. The following description of the two brilliant ictories obtained by the United States troops, nder Col. Wright, over the allied tribus of hosle Indians, was unavoidably crowded out of onr sterday's issue. It will he read with much in-rest, as its importance deserves.

CAMP AT COME D'ALBNE MISSION, W. T., Editor of the Oregonian: You last hear of the assed through scenes of much interest, and of an sciting character. The hattle of the Four Lakes, fought September 1, compelled the com-mand to rest in camp until the morning of the

Jail Delivery.—Two prisoners confined in our jail, one on the charge of kidnapping a negro, and the other for horse stealing, effected their escape some time. Monday night, by filing off the lock of the iron cage in which they were kept, and also sawing through the bars of the window, and by making a rope of a bed-tick, reached the ground. Everything was done in so quiet and neat a manner, that their escape was not known until the jailer carried their breakfest to them in the morning. One of them, Ben. Morrison, is an Irishman, a tailor by trade, and is some six feet high, charged with kidnapping a negro slave.—The other is small, a Frenchman, named Joseph Land, in on a charge of horse stealing. They deserve credit for the way in which they effected their liberation.—Russellville Herald.

But hefore this took place, finding a favorable occasion, Major Grier, with his squadron of his own and lieut. Pender's company, sounds the charge, and like lightning the now anxious men and horses move over the ground, and soon overtake, cut down, and leave npon the field an enemy that was so expluing. But they had not yet left the field, but as the woods skirted us on all sides, they gathered in their scattered fragments and once more came to the attack. Again our troops The firing was warm on each side, and the Inthey gathered in their scattered fragments and once more came to the attack. Again our troope were thrown out to the right and left, and again we moved steadily onward and drove them again before us, and the command continued to fight for seven consecutive hours over a line of aixteen miles, without water, and firing at every point. We killed two chiefs, and many other Indians, wounding a large number, and killed and captured many horses. On one of the dead bodies was found, hy Lieut. Tyler's company, the pistol worn hy Lieut. Only one man was wounded in the fight, nonkilled; which may be regarded as the most wonderful thing on record, for the firing by the enemy was warm and long. But our long-ranged
rifles placed them at great disadvantage, and they
had to give way before us. We made camp on
the Spokan, where, being much exhansted, we
rested the next day to recruit men and minnals.
Never did men fight braver or bolder. The blood
of men slain without cause or provocation seemed of men slain without cause or provocation seemed to impel each individual soldier to a surer aim, and with a determination to make safe his enemy, lowered his rifle and caused each his man to know lowered his rifle and caused each his man to know that we were fast becoming their masters.

Col. Wrighl, with his staff, Dr. Hammond, Capt. Kirkham, Lieut. Mullan and Lieut. Owen, were moving from point to point over the field, while Major Grier, and his ever ready dragoons, spread dismay among the Indians. Lieut. Pender acted during the fight with marked gallantry; coming up with an Indian, with his hand hurling him from his saddle, and then dispatched him.—Lieut. Tyler's company, and Capt. Ord did most effective service, and bore in all probability the greatest brunt of the battle. But each and all deserved the highest credit for the enemy was braver and bolder than Indian enemies usually are, and only left the field from the most dire neare, and only left the field from the most dire necessity. The ever active and energetic Captain keyes, with his line of skirmishers, assisted by his adjutant, hient. Gaining the river, we found our enemy on the opposite bank, flying to his camp, with his bands of loose horses with him, to gain points far from our reach. The Indians, however, still hovered around us on the opposite hank, watching our movements, and anxous to know our next steps, for they had tried both plain and forest, and be-ing worsted in each, must have been now at a loss to know how to move next. Garry, the Spokan Chief, sent in for permission to enter our camp, to explain his position and connection with the affair of Col. Steptoe, which was granted him, and he entered our second camp on the

Leaving this camp on hearing our enemies were in force above, on the Spokan, we determined to move up, which was done along the south bank of the Spokan for a distance of six miles. On the first day's march we passed the great Spokan Falls, a most beautiful sheet of water, where the whole river, having a fall of from forty to fifty feet, comes plunging over an inclined ledge of rocks, through a high, narrow halastic canon, with heautiful fore and hack grounds, affording a landscape that the artist night truly envy.

Reaching our new camp, some of the hostiles coming in, two of them were made prisoners, one being Polahtken, the chief of the Spokans. One

Moving our camp the next day we came npon a large camp of Cour d'Alenes and Polouses travellarge camp of Cour of Alenes and rolouses traveling, when preparations were again made for battle, but finding the Indians in histy retreat, the

A Jailer and a State Senator Murdered. The St. Louis Republican has the following ac count of two deplorable incidents that occurred ecently in the interior of Missouri. It says: Some time since a good deal of feeling was excited in the community by the attempts of a white man, whose name is not remembered, and of a lodged in jail—the negro to be detained until he could be sold, and his white confederate to await trial hefore the proper court. Evening before last, Mr. Nesbitt, the jailer, formerly sheriff of Calloway county, repaired, a little after dark, to the apartment of his prisoners to give them supper. The murder produced much excitement at Fniton, and the citizens seemed determined to

The second is little less deplorable, as it may result tatally to the party assaulted, the present State Senator from the district composed of the countres of Benton, Johnson and Henry, Mr. Goodlet.—
The latter resides in Henry county, but a day or

county seat of Johnson county, probably for the

COURT OF CLAIMS.—The appropriations made by the county court on Monday last, amounted to about \$4,000. This is something more than has been usual. It includes \$430 for the repairs of the jail, which was absolutely necessary in the present condition of that building, and \$250 for the erection of a bridge over the railroad near the Fayette line. These, with \$100 ordered to be paid to Mr. Porter to reimburse him for the recapture of the two counterfaiters, who broke jail some time ago, were, we believe, the only extraordinary appropriations made.

The county levy was fixed at \$1.25. The railroad tax was continued at the same rate as for-

#### Reading Matter on every page. The Fillibuster Expedition

If there is anything ridiculous in the history of the times, the movements of Gen. Walker with regard to Nicaragua, will come under that bead. He has made two attempts to conquer that country, and failed. He is now said to be upon a third trial, and the President of the United States has issued his proclamation against him.

Of course President Buchanan is right in thus preclaiming against this movement, but we don't think much harm is to be apprehended from the fillibuster. In our our opinion, Nicaragua is able to take care of herself in spite of all that Walker can do. The General will be hung, if he ever haud. lands there again.

Any one who looks at the map, and thinks of the kind of people that subabit Nicaragua, will not bave much sympathy for a fillibuster who has fulled twice in attempts upon the sovereignty of that country. Nicaragua is a part of Central America-a country occupying a length of 900 miles upon the Isthmus of Darien, and a hreadth of from 70 to 400 miles. This area is divided into Guatemala, Salvador, Honduras, Costa Rica, Mosquito, and Nicaragua. The last named is next to the largest of these divisions, and only covers an area of 48,000 square miles, with a population not greater than 250,000.

The population is divided into four distinct castes-Indians, Whites, Blacks, and Ladinos. The last named are a mixture of the other three and all these castes are about as worthless as their race is indistinct. One Kentuckian is equal to half a dozen of these sun-hurnt and no-accounpeople. If Walker had had mind enough for such an undertaking, his first descent upon Nicaragua would have been successful. Indeed he was once master of the country, but did not possess the talent to remain so. He was so dazzled with the name of his usurped power, that he cast off the reality for the unsubstantial name.

We are opposed to fillibustering in all its forms. but more opposed to the unsuccessful shape than any other. We might have some sympathy for Walker if he had succeeded or was likely to suc ceed, but the crime of failure added again and again to that of invading a weak and peaceful untry, is too much for endurance.

### A Suggestion.

The Journal of vesterday contained an article, one and a half mortal columns in length, upon the contested seats of the Indiana Senutors. Can't the editor do something of that kind in denniciation of the Baltimore elections, where his political friends best, bruise, kill, and disfrauchise voters ! He complained the other day that Sickles, of N. York, was elected by United States soldiers, when the fact was these soldiers were run off by the nob and not allowed to vote, though they were egally entitled to exercise the elective franchise that case. He now complains of the Indiana Senators with about as much reason as he did of the election of Sickels. We insist upon bis attention being turned to the Plug Uglies, Rip Raps, Blood Tubs, Red Skins, and other horribly named Know Nothings, who make the elections of that city a hy-word and a mockery. There is cause for condemnation there, but the editor of the Journal can't say a word. All is right in this eyes, so far as infamous Baltimore is concerned

R. W. WOOLLEY, Esq. The Border Star, pub lisbed at Westport, Mo., speaks in the following served complimentary terms of R. W. The friends of Mr. Woolley, in Kentucky, want him for Attorney General of the State, which may account for his declining the foreign office. We indorse all the pretty things the Star says of

No one is better qualified for the post. Educated, talented, and gifted, with manners and mind of a courtly and retined order, Mr. mind of a courtly and retined order, Mr. Woolley would be an ornament to the mission and reflect credit upon the land he would represent. Although young in years, he has a fame throughout Kentucky very little less brilliant than that of the popular Breckinridge. As a lawyer he ranks among the foremost of his State, and as a popular orator he stands now where Tom. Murshall stood fifteen years ago. While Kentucky may be pleased to see his inerits thus appreciated by the tender of a respectable position at a foreign court, she would prefer keeping bim in reserve for something still better. for something still better.

-\$50,000 or Money Circulated in Wall Street.
The arrest of a guest of the International Hotel,
Mr. Jethro Wood Underhill by name, for having iu his possession with intent to pass about \$400 of the bills of the New England Bank, at Fairmount, Me., a concern that never existed, was effected on Monday through the instrumentality of the pre-prictor of the hotel, and from information subsequently received by detective officers Roache and Poole, it appears that the Western States havrecently been thooded with the bills, and that \$50, 1000 of them have been recently passed in Walstreet and vicinity for stocks, lands, etc. The bill street and vicinity for stocks, lands, etc. The hills are \$5's, \$10's, and \$20's, and are in every respect bandsomely executed. They are signed 'Martin,' cashier, and E. Rittenhard, president. It appears that Mr. Underhill, last week, put up at the International Hotel, and banded to the clerk to deposit in the safe, \$400 in these bills. A day or two afterwards he sent an oder to the clerk to pay \$16 to the bearer of it. The bills were all \$10's and \$20's, and the clerk paid one of the tens on the order and changed another from the money on the order and changed another from the money in his cash drawer. A few hours later the biil was returned by "the hearer" as worthless. The whole package was then examined and found to consist package was then examined and found to consist entirely of bills of the New England Bank. The police were then called in, and Underhid was arrested and taken before justice Kelley, to whom he stated that he had received them from Mr. Wilcox, broker, 14 Wall street, in paymen for twenty-five acres of Western land. Whether or not the statement be true, has not yet be ascertained, and the magistrate held him to await examination. He stated that his father and him-self, some time ago, started a bank in Cumber-land county, Pu., which is still in good standing, but that this "New England" bank he knows but that this "New England Dank he knows nothing about. It is stated that a bank note engraver of Wall street, nine mouths ago, received an order to print five hundred thousand dollars in the bills from one II. T. Downing, professing in the bills from one II. T. Downing, professing to belong to Portland, Me., and executed the order. It is also stated that Mr. Calhoun, of Exchange Place, recently paid away \$4,000 in these bills. Mr. Wood, broker, of Pine street, \$1,500 in them for wine. A Mr. Thompkins got rid of \$2,000, ja them. A Mr. Jackson \$15,000, and John S. Dye, an unknown sum in them. Altogether about \$50,000 of the bogns trash has changed hands in Wall street within a very short time. Some time ago our police got an intimation that bills on this

are new Pianos in this market, but they are well known in many sections of the country as an A No. I instrument. Competent judges who have tried them pronounce them fully equal, if not superior, to the Bielmay & Son's Pianos. They are a beautiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay snything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Parlor Grand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unusually low for cash. Proposals will be received for the delivery of said articles at Boston, New York, Philadelphia, Baitimore, N. Goods of American manufacture, of the required styles and quality, will be preferred; but as the samples of blankels and cloths are foreign fabrics, and these articles are required to be of a peculiar character, in order to meet the peculiar tastes and wants of the Indians, all bidders therefor must furnish samples of them for the examination of the office previous to the consideration of the bids. Sample guns must also in like manner be furnished, from which the department will make a selection; and, in case of more than on sample being furnished by the same bidder, the price for each must be distinctly indicated in the bid.

The articles to be furnished must in all respects conform to, and be equal with those samples by an agent or agents appointed for that jurpose. Such as may be unequal thereto, in any particular, will be rejected; in which case, the contractor will be bound to furnish others of the required kind or quality, within three days; or, if that be not done, they will be purchased at his expense. Payment will be made for the goods received on involves thereof, certified by the agent or agents appointed to inspect them.

It is to be understood that all bids for furnishing the said articles may be rejected at the option of the department; and that none from persons who have failed to comply with the requirements of a previous contract with the linited States, or who are not ununfacturers or wholesale dealers in the required articles, will be considered; and the fact that bidders are such manufacturers and dealers, must be eviden ed by the certificate of the collector

The right will be reserved to require a greater or lea

collector of the port where it is proposed to deliver the articles.

The right will be reserved to require a greater or less quantity of any of the articles named, than that specified in the shove schedule; and the proposals must embrace the articles with the quantities thereof, as they are arranged in said schedule, with the prices annexed to each, in dollars and cents, at which they are to be furnished, and the amounts must be carried out and facted up for each class. They should be submitted with the following heading:

"I [or we] hereby propose to furnish for the service of the Indian department, and according to the terms of the adding articles at the prices thereto affixed, [here lusert the list according to the class or classes proposed for,] cellverable in the city of [Boston, New York Philadelphia, Bsitinore, New Orleans, St. Louis, Memphis, or Cincinnati, as the case may be.] by the first day of April next, or at such time or times during the year 1859 as may be ordered by the Commissioner of Indian Affairs; and I [or we] will also furnish at the same prices such additional quantities of the same kinds and qualities of goods as may be required for the service of the Indian department during the year 1859, deliverable as shove stated; and if this proposal be accepted, (here insert the words 'in whole or in part,' if more than one class be proposed for,] I [or we] will, within twenty days thereafter, execute a contract accordingly and give accurity, satisfactory to the Commissioner of Indian Affairs, for the faithful performance of the same."

Each preposal must be accompanied by a guarantee in the following form, to be signed by two or more responsible persons, whose sufficiency must be credited to by a United States judge or district attorney.
